

UCSF Division of Clinical Informatics
and Digital Transformation
Department of Medicine

DoC-IT Leadership Team

OUR LEADERSHIP TEAM

Julia Adler-Milstein,
PhD

Chief

A Jay Holmgren,
PhD

Associate Chief
for Research

Raman Khanna,
MD, MAS

Associate Chief
for Education

Sara Murray,
MD, MAS

Associate Chief for
Health System
Partnership

Gato Gourley

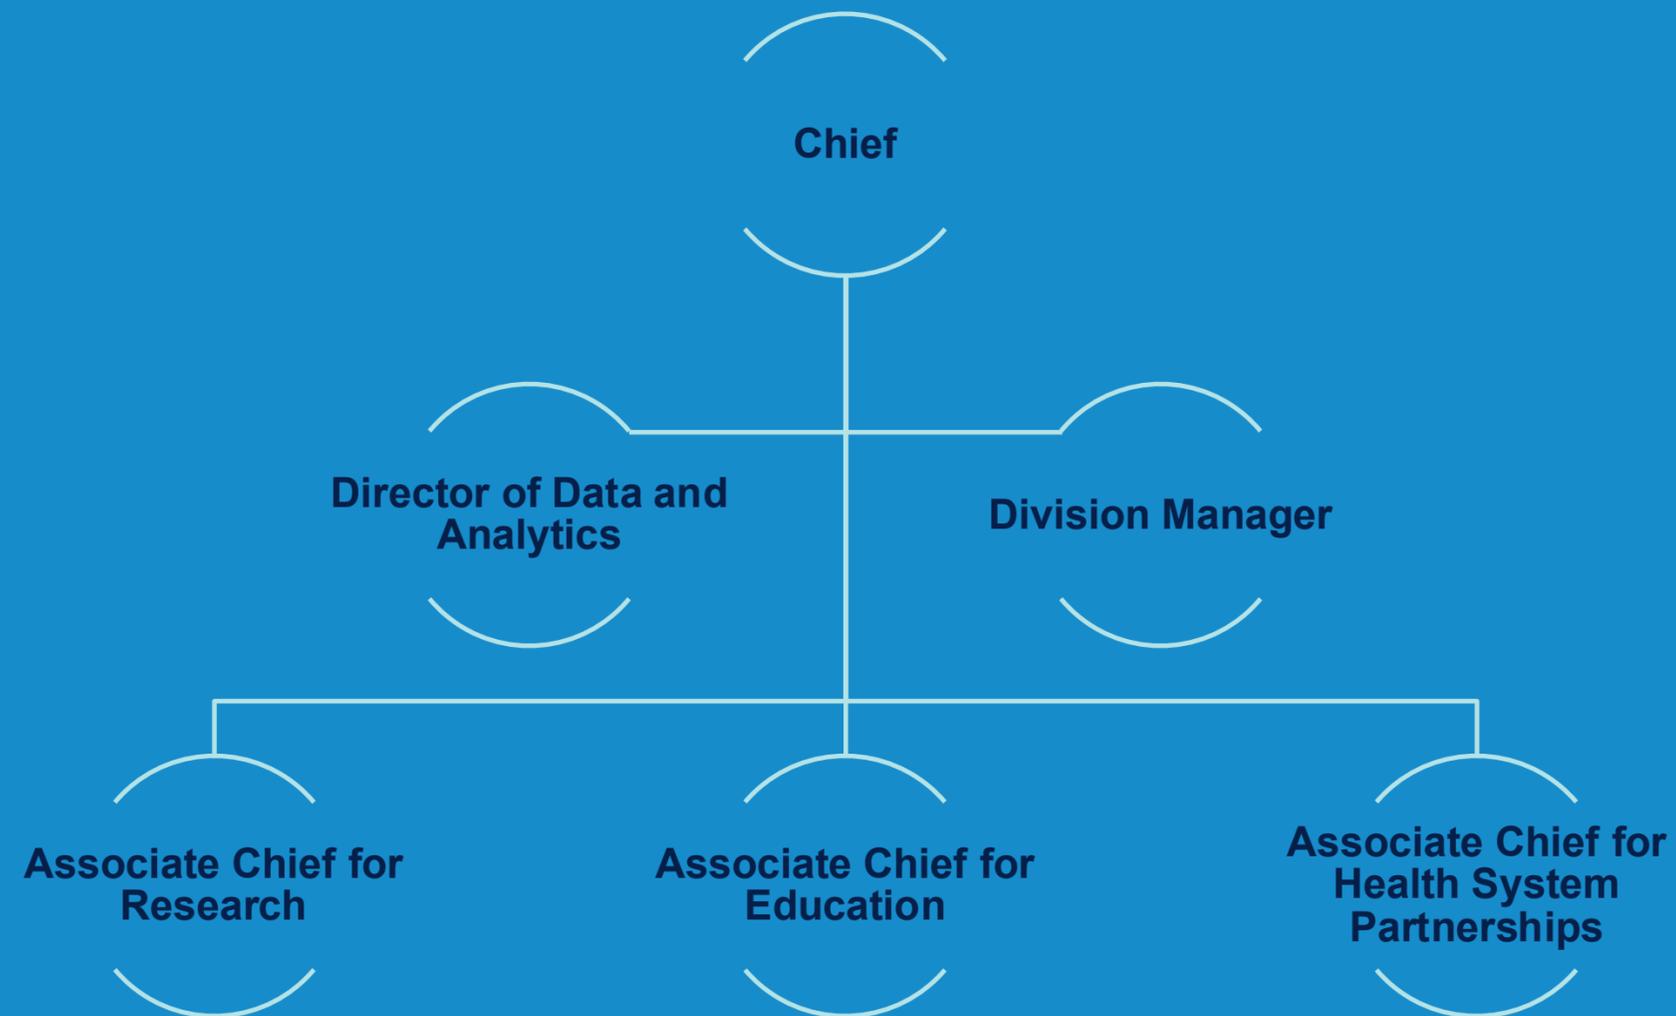

Division Manager

Robert Thombley

Director of Data
and Analytics

OUR LEADERSHIP TEAM (cont.)

Associate chief roles come with small amount of protected time to support efforts

A Jay Holmgren, PhD

Associate Chief for Research

Strategic Plan Area: Research – Expand and Improve Clinical Informatics Research

This includes a focus on:

- Supporting research efforts within the division
- Facilitating research collaborations within the division, across UCSF, and across institutions
- Ensuring research visibility locally, nationally, and internationally
- Developing research-related events and programming for DoC-IT

A Jay Holmgren, PhD (cont.)

Associate Chief for Research

In the division, you can come to me:

- If you want to **collaborate** on informatics-related research projects but are not sure who to go to or how to access needed expertise
- If you want **ideas** or **mentorship** on how to accomplish your research goals
- If you have recommendations for research-focused divisional programming (e.g., events, talks, works in progress sessions) or resources

Raman Khanna, MD, MAS

Associate Chief for Education

Strategic Plan Area: Education – Elevate Clinical Informatics Education and Training

This includes a focus on:

- Supporting current and future education and training programs in the division
- Partnering with DOM and other departments and schools to support their needs in informatics education
- Helping learners find projects and educational offerings
- Helping trainees find jobs and become leaders upon graduation

Raman Khanna, MD, MAS (cont.)

Associate Chief for Education

In the division, you can come to me:

- If you **want to work with and/or mentor CI fellows and other learners**, on your informatics research or operational projects
- To develop informatics **educational offerings** (i.e., UME, GME, CME)
- If you have **students or other trainees** who are interested in informatics as a career and want to learn more

Sara Murray, MD, MAS

Associate Chief for Health System Partnership

Strategic Plan Area: Health System Partnership – Establish DoC-IT/health system partnership model that creates value for the health system by leveraging unique capabilities of DoC-IT

This includes a focus on:

- Bringing implementation science to health system technology implementation
- Evaluating value for major technology implementations
- Partnering with UCSF Health to establish best practices and infrastructure for evaluating and monitoring emerging technologies, beginning with AI

Sara Murray, MD, MAS (cont.)

Associate Chief for Health System Partnership

In the division, you can come to me:

- To **partner with UCSF Health** to evaluate major informatics initiatives
- For questions about the best approach to **implement research algorithms or AI** at UCSF Health
- To learn more about **AI implementation** at UCSF Health
- To **partner with ZSFG or SFVA** in the areas above to get suggested people to reach out to

Gato Gourley

Division Manager

Strategic Plan Area: People and Community – Establish formal and informal approaches to create clinical informatics identity

This includes a focus on:

- Growing the division, including involvement from all parts of UCSF (ZSFG, VA, different Divisions, Departments, and Schools)
- Facilitating primary and secondary appointments for faculty interested in clinical informatics
- Fostering an engaged and satisfied staff with opportunities for growth and professional development
- Promoting and disseminating DoC-IT activities and the work of everyone in the division

Gato Gourley (cont.)

Division Manager

In the division, you can come to me:

- For information on **primary and secondary appointments** in DoC-IT. We would love to hear from anyone who is interested!
- To be **added to our listserv** (or to add someone you work with)
- To **promote your work** (publications, projects, talks, grants, awards) with help from our director of communications, Mika Rivera
- To find out about **staff professional development opportunities** and provide suggestions to improve the staff experience
- For general **administrative questions**

Robert Thombley

Director of Data and Analytics

Strategic Plan Area: Analytics – Build a data and analytics team and service model to support clinical informatics research and health system projects

This includes a focus on:

- Understanding and servicing data management & analytic needs within the DoC-IT community
- Managing data & analytics team
- Providing and maintaining self-service data sources
- Engaging with the broader UCSF IT community and advocating for clinical informatics data needs at the enterprise level

Robert Thombley (cont.)

Director of Data and Analytics

In the division, you can come to me:

- To explore feasibility or briefly consult on any **technical, data, or analytic questions**
- To **identify potential data sources** or clarify data capture mechanisms within Epic
- To explain or mutually **explore aspects of UCSF's technical landscape**

For faculty and teams funded for data and analytic services, you can come to me:

- To **initiate or complete projects** that have a data or analytic component
- To work out data and **analytic team resource allocations** for your projects

Sumant Ranji, MD

Director of CODEX

As director, Sumant:

- Oversees CODEX
- Leads strategic planning and execution of CODEX's work
- Ensures strong synergies between CODEX, DoC-IT, and DOM

Thank you!
